Bob

EPA is planning on meeting with EA on Thursday May 2 from 1- 3 pm to discuss prioritizing work at the site is as follows.

1. Background evaluation
2. Groundwater evaluation including all planned monitor wells
3. Soil/sediment evaluation at the AOCs in the following order
 - a. AOC 6 and 7
 - b. AOC 4
 - c. AOC 5
 - d. AOC 1
 - e. AOC 3

Thanks

Subject: Falcon Refinery RI/FS (TO088)
Brian:

This email is to confirm the planned technical exchange meeting scheduled for 1:00-3:00 PM CDT on Thursday May 2, 2013 at the EPA Region 6 offices for the referenced task order. We will evaluate the planned field sampling activities to determine what can be accomplished with the current funding. Based on our discussions, it is my understanding that EPA wishes to accomplish the work in the following priority:

4. Background evaluation
5. Groundwater evaluation including all planned monitor wells
6. Soil/sediment evaluation at the AOCs in the following order
 - a. AOC 6 and 7
 - b. AOC 4
 - c. AOC 5
 - d. AOC 1
 - e. AOC 3

Please let me know if this understanding is correct. Let me know if you have any questions.

Thank you,

Bob Owens
